

## Crafting Better Prompts with the CREATE Framework

Use the **CREATE** framework to write clear, focused prompts that generate useful responses.

### CREATE Breakdown

#### **C – Character**

Set the perspective.

*Example: “You are a healthcare consultant specializing in urgent care operations.”*

#### **R – Request**

State the task.

*Example: “List strategies to reduce patient wait times.”*

#### **E – Examples**

(Optional) Offer a sample idea.

*Example: “One option could be online check-in.”*

#### **A – Adjustments**

Refine as needed.

*Example: “Focus on low-cost ideas.”*

#### **T – Type of Output**

Define the format.

*Example: “Numbered list with brief explanations.”*

#### **E – Extras**

Add constraints.

*Example: “Avoid jargon. Keep it simple.”*

### Sample Prompt

You are a healthcare consultant specializing in urgent care operations. List three realistic strategies to reduce patient wait times. Use a numbered list with 1–2 sentence explanations. Keep the language simple and avoid technical terms.
